

"Winged" Spearhead

Date

about 700–1000

Primary Maker

Frankish

Medium

iron

Description

Excavated condition. Short, conical socket with no visible evidence of holes but these may have been at the now corroded base. Flanking socket & in same plane as blade are 2 roughly triangular truncated lugs, rather light. Leaf-shaped blade of lenticular section with light medial ridge. No evident traces of decoration

Dimensions

12 x 38 cm (4 3/4 x 14 15/16 in.), 14 oz (weight)
